Effective Pressure Area Care CUSHIONS

High grade, antimicrobial TPU material with optimal envelopment and immersion properties to ensure clinical efficacy and patient comfort. Highly effective and complete pressure area care on any chair or wheelchair.

Indications for use:

to aid in the prevention of pressure ulcers
can be used for all levels of risk
to aid in the treatment of all categories of pressure ulcers (I - IV)

Ventilation Holes:

- aiding the even distribution of pressure across the patient's body surface area.

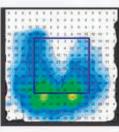

- provides effective ventilation and optimises microclimate.

- minimises risk of skin maceration as body fluids are drawn away from the patient's skin.

4240 Large Cushion

Pressure distribution results measured with BodiTrak Smart Seat

Same individual sitting on an EHOB Cushion on same chair.
